

**INTERCONTINENTAL  
TRUCK BODY**

# CUSTOMIZATION

The design of our truck bodies, trailers and enclosures is limited only by the imagination. With each new project, we continue to improve as we find creative new ways to meet our customers' needs. Combining the expertise of our design team, professional engineers and journeyman trades, we leverage today's best custom design and construction techniques. We configure our patented system of building to your precise needs, matching your requirements perfectly.
