FIRE/RESCUE

Emergency Response

At ITB we custom build everything. Which means we can meet your specific needs with a rugged custom vehicle that is fully NFPA compliant and doesn't break the budget. From agile, rapid deployment vehicles to highly technical Command Centres and everything in between. Our goal is to help you execute an effective response at any scale. Collaborate with our experienced sales and design teams to design your perfect truck or trailer in every detail - custom compartments, creative storage solutions, and highly specialized power supplies, lighting, and networking capabilities. No one knows the challenges of your job better than you. We won't tell you what you need - we'll listen to what you need and build to suit so you have the right vehicle that will last a lifetime.
